1 Students

- As a student with no time, I want to find other students in my section, so that I could keep a social live in my studies

- As a student facing exams, I want to find other students in my year, so that we could study together.

- As a computer science student, I want to find students from other sections, so that I don't feel like I'm on the bangs of the rest of the university.

- As a student, I want to be able to ask other students from previous years for advice on a course so that I can get through the year better

- As a student, I want to find students with the same sporting interests so that we can get together in sports

- As a student, I want to be able to consult the course schedule easily so that I don't forget to go to class

- As a student, I want to know if other students make the same journey at the same times, so that I can take advantage of these journeys to share convivial moments

- As a student, I want to find other students who share the same passions as me so that I can create a new association

- As a student, I want to find other students from the same country or canton as me so that I can create a community

2 Assistants

- As a teaching assistant, I want to inform the students of a course of the session cancellations so that I don't have students who have come for nothing

3 Professors

- As a teacher, I want to inform students in a section about ARE's free positions, so that I have new assistants for exercise sessions

- As a teacher, I want to create a class group so that I can convey course information more easily

4 Associations

- As a student association, I want to put up announcements, so that students can be notified of various events

- As an association, I want to find the contact details of students who might be interested in the association so that we can recruit new members

- As an association, I want to know the number of students in a section so that I can better manage food and other things
